TLI **LED STRIP SERIES**

## Introduction

1.Every three LED as a unit,flexible printed circuit boerds,using double stick on the back,easy to install.

2.The standard length of each roll is 5meter.

3.Optional Color red/yellow/blue/green/white/warm white,Color temperature: 2300-6500K

4.Working Voltage:DC 12V/24V (3.5V/5V)

5.The products are divided into nake(IP33),half-waterproof(IP44), waterproof(IP64) and full waterproof(IP6T)

6. All LED strip must be installed on an aluminium heat dissipation surface for warranty purposes.

7. TLI professional strip dimmable driver compatible most Australia dimmer, and C-bus, Dali. System.

SIZE:

Led Rigid Modlar(Aluminum Plate PCB)

Driver 24W－250W
12V/24V driver

12-120W,12V/24
DMX Dimmable
Dali Dimmable
0-10V Dimmable

RGB
Controller
